This Careers Fair is your time to ask about higher education, work experience, apprenticeships, and more!

Key presenters for Year 13 students will be Post-18 Providers throughout the Fair. Please also be sure to visit these organizations (shown in blue) who have noted that they offer Apprenticeships.

Tools to make the most of your visit

Questions to start discussions

The Careers Fair is your chance to talk to representatives from different employers, volunteer organisations, apprenticeship providers, colleges and universities. Students will be practising your professional communication skills as well as seeing how your interests lead to Career opportunities. **Here are some questions to get you started when you are talking to presenters:**

Education or Apprenticeship Providers:

- What kind of subjects or courses do you offer?
- What level qualification would I leave with?
- Where is your campus located, and what is student life like?
- What kind of funding (travel or tuition cost) opportunities does your school have?

Businesses:

- Do you host Work Experience placements?
- Does your business recruit apprentices?
- Did you go to University, or did you do an Apprenticeship?
- What subjects did you choose for your GCSE options?
- What subjects did you study for A-levels / BTEC / T-Levels (Post-16)?
- What skills do you look for in employees?
- If I want to work with your organisation in the future, what experience would you look for on my CV or application?

Virtual Careers Fair

Following the in-person Careers Fair, KA's will update the Virtual Careers Fair page on our website so that students can quickly find more information on a mix of over 45 businesses and education providers.

- Go to the "Careers" webpage on the KA website and look for the Virtual Careers Fair
- This Virtual Careers Fair allows students the opportunity to explore businesses and education providers at their own pace.
- This resource is perfect for students who were unable to attend, or have further questions for an employer that they spoke to on the day.
- Additionally, this resource is available to all students from Year 7 to Year 13.
