

**This talk is
FREE to
our
students!**

King Alfred's Academic Enrichment Programme presents:

Going Viral: The Human Defence against Viral Invaders

**With Dr Lizzie Horton
Of the University of
Oxford
Radcliffe Department of
Medicine**

**Wednesday 29th January 2025
6:30 – 7:30 pm
KA's Sixth Form Auditorium**

The inimitable Dr Lizzie Horton (@Liz.thescientist to her 10,000+ followers on Instagram) will guide you through the science behind how cells in our body can detect an infection, and how the body's immune system forms the first line of defence. Join us for a fascinating interactive evening as we discuss one of the body's most critically important tasks: defence against external virus threats.

**You can also
book here**
