

Sixth Form Entry Requirements

We recently reviewed our entry requirements as a result of changes to courses. Entry requirements are confirmed to students before they make their choices in the New Year. If you achieve the 'automatic entry requirements' you will be placed onto your chosen course. If you achieve the 'consideration entry requirements' a decision will be made based on your results, recommendations from staff, your performance during Sixth Form Induction and the size of the class you would be joining.

Level 3 Course	Consideration entry requirements	Automatic entry requirements (in addition to consideration requirements)
